Joe Soll 조살, LCSW

Joe Soll knows well how the pain of loss can undermine relationships... Delving deeply into both the loss of the child and of the mother are necessary preludes to reunions if they are to proceed without another devastation. This book will help those affected by adoption to find these qualities and permit themselves to engage in fulfilling relationships - *Nancy Verrier*, psychotherapist, author of **Primal Wound: Legacy of the adopted child and Coming Home to Self: The Adopted Child Grows Up.**

This book creates a means for those affected by adoption to fully grieve the losses inherent in adoption by simply opening the book, reading, & doing the work contained within the pages. Joe provides a way to examine 'the adoption experience' in a gentle & sincere way allowing for a unique healing opportunity. - *Jean Provance* LCSW, psychotherapist & adoption educator.

We have been given a gift; a ground breaking, deeply insightful analysis of the complex reasons why adoption reunions are so often interrupted or destroyed by the lack of self- knowledge. This book shows adoptees & their mothers, those brave survivors of the excruciating trauma induced when they were separated, how to heal themselves in order to prepare for & deal with reunion. Here is a detailed set of psychological skills enabling reunitees to travel safely & well. - *Joss Sawyer*, author of **Death by Adoption, Voices from Exile**

Joe Soll writes as first-person witness about adoption... as a healer who has helped so many others cack the seal on doors that hold their true identities... heartfully, mindfully, soulfully... Joe brings new ways... to see the realities, understand that early separation from family may be recapitulated in other ways, psychologically and spiritually, throughout one's life, & how to mend & walk strong. So worthy a set of endeavors. - *Clarissa Pinkola Estés, Ph.D.* testifier in legislatures for adoptee parity, author of foreword to **Finding Our Place: 100 Memorable Adoptees, Women Who Run with the Wolves** and **Untie the Strong Woman: Blessed Mother's Immaculate Love for the Wild Soul**

Joe Soll has probably worked with adoptees & first parents more than anyone else on the planet. His approach has always involved empathy, intuition and introspection, without which dialogue runs dry. Few know the depth of the adoptee and first parent experience as well as Joe Soll, especially the dark side, where loss and loneliness reside. Combining his experience, or perhaps we should say wisdom, with current therapeutic approaches, Joe creates an environment where growth can occur. Read his work, try it out, see how it works for you. *Robert Andersen, M.D.*, psychiatrist, author of **Second Choice: Growing Up Adopted** and **A Bridge Less Travelled: Twice Visited**

Practical advice for adoptees, their parents & therapists. The focus is on the healing power of openness, truth & validation of self, in adoption (rather than the toxic secrets, lies & myths, still so prevalent in the adoption world). This is an important book... a must read." - *David Kirschner, Ph.D.*, Psychoanalyst, author of **Adoption: Uncharted Waters. Psychologist's Case Studies.**
